NEWS ITEMS OF INTEREST.

The professor of Chinese at Harvard has at last a pupil.

A New York lady at a Washington ball on Monday evening wore \$600,000 worth of diamonds.

Haze Brown gave a supper in jail at Moberly, Mo., to celebrate his conviction and sentence of death for murder.

The Swiss exports to the United States in 1879 show an increase of 15,000,000 francs, on those of 1878. The chief increase being cotton goods, watches and embroidery.

The Rev. A. J. Kirk was giving satisfaction as pastor of a United Brethren church, at Kansas City, when his usefulness was suddenly destroyed by the news that he was a fugitive bigamist and swindler.

Count Arrivabene, 94 years of age, was admitted a Knight of the order of Malta in 1791, under Grand Master Rohan, and has been promoted to the Grand Cross of that order, of which he is the oldest member.

The prospects of rioting in Maine drew a large number of tramps to that State, their hope being that the disorder would give them opportunities for plunder. They are now devoting their attention to hen roosts.

Between the acts in the Boston Theatre, a man started the audience with a sneeze so loud and vigorous that the house seemed to shake. There was great applause, and cries of "Encore!" but he simply bowed his thanks.

The population of South Australia (capital Adelaide) is 808,829; of Queensland, 210,510, seven per cent. of which are Chinese. The area of Queensland equals that of the British Islands, France, Spain, Portugal, Italy and Switzerland.

Claims to lots in Leadville are so unstable that the owners are extremely suspicious. James Langdon looked out of his window at night, saw a man innocently crossing his ground, conjectured that he had some sinister design, and shot him dead.

A paragraph in the *Kolnische Zeitung* warns the public of the inflammability of celluloid. People who wear bracelets, combs, and other articles made of it are cautioned not to expose them to a temperature of more than 150 to 160 degrees Centigrade.

The Prussian Minister of Commerce lately told the Chamber that the Government does not intend to buy up more railroads. It wants first to see whether those owned by the state will be a financial success. The state is already in possession of all lines of strategic importance.

In the Swiss cantons bordering on Germany there is much complaint of the influx of German beggars, who, even when conducted across the frontier, speedily return. Artisans and laborers also cross over, though in Switzerland meetings have been held to petition for public works to relieve the unemployed.

Influential ladies in Cincinnati are signing the following pledge: "Believing that theatrical and operatic performances on Sunday are prejudicial to the good order and morals of the community, we hereby pledge ourselves to abstain from patronizing an opera house or public hall which opens its doors to entertainments of this kind on Sunday."

C. J. Brookins is agent for all the leading styles and makes of pianos and organs. He guarantees to sell at Eastern prices, on the installment plan. Pianos and organs for rent. Jan 31

New Barber Shop. John Bois has opened the Wine House Barber Shop in first class style, and will accommodate all who call with the most approved hair-cut or shave. His outfit is new and he has the neatest and tastiest shave in Nevada. Hot and Cold Baths 25 cents. Booths stand, and all the accessories usually found in barber shops, connected with the establishment. JOHN BOIS.

EDUCATIONAL ADVANTAGES.

The new school house is approaching completion, and many a solid citizen of Reno is comparing it mentally with his "Alma Mater." Probably not half a dozen men in town had the privilege of attending school in such a handsome and comfortable building as it will be. Far from begrudging the little folks of this generation the superior advantages they possess, there is no one gladder for them than the sturdy old stalwarts who got their "larnin'" in a log school house out of a McGuffey's ten-cent spelling book. We are all well-pleased to see the "coming man" enjoy in his youth opportunities which fortune denied to us. We look to see our boys achieve all the proud success which we feel we would have been capable of under more favorable circumstances. We can only judge of their future by the percentage they are gaining on us now, and indulge in bright anticipations. None but favoring gales fill the silken sails of hope. We all believe that after we are dead and forgotten, our children and theirs will be holding honorable positions in the world.

CHINATOWN CONDEMNED.

The San Francisco Board of Health have declared Chinatown a nuisance. They made a thorough examination of the precinct and found its filth unspeakable. They say in their report: "That this laboratory of infection—situated in the very heart of our city, distilling its deadly poison by day and by night, and sending it forth to contaminate the atmosphere of the streets and houses of a populous, wealthy and intelligent community—is permitted to exist, is a disgrace to the civilization of the age. Alien to our laws, alien to our religion, alien to our civilization, neither citizens nor desiring to become so, the Chinese are a social, moral and political curse to the community."

The first question one naturally asks in connection with this announcement is: What are the Chinese going to do about it? The only answer seems to be that they must at last obey the cry of the San Francisco Workingmen—they must go.

THE CASE OF COLBY.

Last Saturday was the day fixed for the execution in Santa Cruz, Cal., of Colby, a convicted murderer. A stay of proceedings has been granted in the case, but the Supreme Court had rescinded the order, and the execution was to have taken place on the day appointed, but the officers could not carry out the sentence without the order of the Supreme Court, which by some negligence was delayed. The Santa Cruzans turned out in strong force on Saturday to witness the execution, and when it was found that the necessary papers had not arrived, excitement ran high, as the people feared that they would be disappointed of their hanging. The probability is that an informal execution would have taken place had not the prisoner been reprieved by the Governor, and the execution stayed until March 5. This bridged over the difficulty, and the angry crowd dispersed.

UNAPPROPRIATED RELIEF FUNDS.

The Call states that there are \$800 on deposit in San Francisco, an unappropriated balance of the fund raised in the city for the benefit of the sufferers in our great fire of last March. The trustees of the fund propose to hold it until another such a calamity occurs. They could not do a better thing with that sum than to donate it to the Reno fire department, which needs assistance, as a forthcoming report will show.

The feeling expressed by several citizens who have heard of the \$300 on deposit is that Reno ought to get the money somehow or other. There are plenty of sufferers by the fire here yet. This community will feel the ill effects of that great conflagration for many years to come. That sum would greatly help the Free Library and Reading Room which the Reform Club is trying to establish.

A SLIGHT MISTAKE.

Sarah Winneconce, besides being an Indian Princess, has the pride of chivalry in her nature. She recognizes the "code" and seeks redress through it. Her challenge to the editor of the Reno GAZETTE attests this. It was disconcerting for that gentleman to

intimate that Sarah had over-indulged in the "ardent." The lady is accustomed to hard riding and exposure to the weather. Extreme fatigue might have been misconstrued as inebriety. At any rate, the private movements of Miss Sarah do not concern a public journal.—*S. F. Call.*

The Call, in its chivalrous defense of the Indian maiden, has misstated the facts. It was the editor of the Silver State, not the editor of the Reno GAZETTE, that was challenged by the dusky Princess. And if Sarah's doing-don't concern a public journal, why is the Call waving its ears over?

AN AMEN DED LAW.

The following is an important change in the mining laws of the United States. It is an amendment to section 2,834 of the Revised Statutes. The amendment provides that the period within which the work required to be done annually on all unpatented mineral claims shall commence on the first day of January succeeding the date of location of such claim, and this section shall apply to all claims located since the 10th day of May, A. D. 1872.

EDITORIAL NOTES.

Southern California has been visited by a very heavy rain storm. At Santa Barbara ten inches of rain fell in the course of two days. The streets of Bakersfield were white with snow on Saturday. The unusual rainfall makes the farming prospects very bright in Southern California.

An attempt was made to resuscitate the two murderers who were hanged at Murfreesboro, Tennessee, on Friday. The attempt failed. Fifteen thousand people witnessed the execution.

A section of the track between Sulphur and Benicia, on the new route to San Francisco, sank on Friday. Trains will run via Vallejo until the track is relaid.

PACIFIC COAST NEWS.

Attorney Wellington Stewart, formerly of Virginia City, has begun suit against Carson, asking for \$7,000 damages for injuries sustained by his wife in falling over an exposed cistern cap.

About 800 men are still at work on the Nevada Central, under the general supervision of Frances Bridges, and are engaged in ballasting the track and putting in a Y at Lediie. Two hundred of them are on the gravel train.

A telegram from Marysville says: "The Marysville Woolen Mills through the Directors, have closed, throwing out of employment about 70 employees, 40 being Chinese. The company will probably conclude to disincorporate." The Appeal has nothing to say.

The Leadville Chronicle says there is a movement on foot among the society gentlemen of Leadville to give a ball on the 22d inst. that will far exceed anything of the kind heretofore given in that city. The programmes are to be printed on white satin, and the pencils appended will be pure gold.

Improvements are reported in Belcher. In cutting out a station belcher of the crosscut in the 2760-foot level, and east of the drift along the ore vein, stringers of good ore are found coming from north to east. These have continued for ten feet, and are strong and promising.

Friday afternoon at Bodie, a miner employed at the Standard Consolidated mine, stepped into the shaft at the 500-foot station, falling to the bottom, 200 feet, killing him instantly. He sat on the cage, intending to go to the 100-foot level, but by mistake got off the 500 station, and unconscious of his error, walked into the shaft.

Says the Nevada City Transcript: The snow at various places in this county must be about as follows: Meadow Lake, 30 feet; Eureka, 10 feet; Moore's Flat, 7 feet; Derby Shaft, 4 feet; North Bloomfield, 4 feet; San Juan, 3½ feet; Washington, 3 feet; Omega, 5 feet; Central House, 6 feet; Truckee, 8 feet; Quaker Hill, 3 feet; between this city and Quaker Hill, 3 feet.

A cynical Southerner living in Atlanta has purchased Confederate currency amounting to over \$1,000,000 which he will use as circulars, printing his advertisement on the back of each bill. He thinks that many millions of this currency are still in existence, and that there are many who are hoarding it carefully, expecting some day to see it worth 100 cents to the dollar.

Two hot-headed students of Kenyon College, Ohio, having had a misunderstanding, agreed to settle it the "real old Kentucky style." Pistols and coffee were ordered, the services of a surgeon secured, and the sanguinary youths started for the place of meeting, but the faculty heard of the affair and bloodshed was prevented. The Grand Jury meets next Monday and the case will probably come up for examination.

Cremation Boom.

The manager of the crematory at Washington, Pa., says he has over 100 applications from persons who wish to be incinerated after they die.
